The Daily Oregonian.

FRIDAY MORNING, NOV. 20, 1868.

The Sandwich Islands.

Some time ago we published a portion of an article written by an American resident of the Sandwich Islands, in which the opinion was expressed that the late proposed treaty between the United States and the Islands would have resulted to the disadvantage of the former, had it been ratified and put in operation. The same writer also expressed the opinion that the annexation of the Islands would be of no importance to the United States, and stated that the King and the Government were thoroughly hostile to Americans and preferred British connections. This document was said to have been before the Senate at Washington, and to have exerted a powerful influence in causing the rejection of the treaty. Another American resident at the Islands has taken up the subject and written a review of the document alluded to. The last writer dissents totally from the positions of the first; says the Hawaiian Government is not at all hostile to the United States, and expresses the opinion that the reciprocity treaty should have been concluded. He says in regard to the treaty: "It would strengthen the kindly feeling between the two countries; it would bind them to each other more closely by the cords of commerce and mutual convenience and dependence. It would make the people one, in fact, whilst they might be two in name, and prepare the way for that peaceful union which will doubtless come by and by, and which will, in the end, seem mutually desirable and best to all concerned. It would increase very greatly the imports from the United States here, and the exports from here there. The United States, it is true, would yield up more revenue in the exchange than the Islands—not because the value of her exports exceeds ours, but because she now taxes ours much higher than we do hers. It would increase the trade between the two countries, not only in the Pacific States, but with the Atlantic States also. It would promote a mutual prosperity, and if Hawaii should be richer in consequence, so would the United States; and when the time of union shall arrive the Islands will be none the less desirable because they are richer or more prosperous, and because three-fourths of the wealth not in native hands is in American hands." This letter, which is written to the San Francisco *Bulletin*, also states that all foreigners at the Islands are uniformly in favor of annexation to the United States. Three-fourths, or more, of all the enterprises there are now in American hands.

A LESSON FROM MICAWBER.—Motley, the historian, lately made a speech in Boston in which he quoted this extract from Dickens, which fully illustrates the principle of paying the national debt in protested demand notes and shows who the originator of this idea of paying debts was: "'The amount of my first obligation,' said that great financier, (Mr. Micawber), on a memorable occasion, 'was £23 4s. 9 1-2d.; of the second, £38 6s. 2d. These sums united make a total, if my calculation is correct, amounting to £61 10s. 11 1-2d. To leave my friend Mr. T. Traddles (the holder of the note) without acquitting myself of this pecuniary obligation, would weigh upon my mind to an insupportable extent. I have, therefore, prepared for my friend Mr. T. Traddles, and I now hold in my hand a document which accomplishes the desired object. I beg to hand to my friend Mr. Traddles my I O U for £61 10s. 11 1-2d., and I am happy to recover my moral dignity and to know that I can once more walk erect before my fellow men."

UNDERGROUND DEMOCRACY.—The Colusa (Cal.) *Sun* refuses to be comforted for the defeat its party has sustained. In speaking of the Democratic party and candidates, it says: "The National Convention made a lame platform and put men upon it who elicited no enthusiasm whatever from the party. Neither of the [illegible] rated the sentiments of the great mass of the party. More than nine tenths of the Democratic party believe today with us, that the late war was wrong in its inception, wrong in its prosecution, wrong in its results! That every act of the Radical party from the inauguration of Lincoln to the final overthrow of the Constitution last Tuesday, was wrong, was conceived in hate and brought forth in madness." Undoubtedly this a correct statement of the views of the Democratic party, and it is because that party holds these views that it has been so terribly defeated.

FINE WOOL.—We find in a Vermont paper a very curious history of the growth of fine wool and the manner of its introduction in the United States. Fifty years ago scarcely a pound of fine wool was grown in the United States, in Great Britian, or in any other country except Spain. In 1784, a small flock was sent to the Elector of Saxony as a present from the King of Spain, whence the entire product of Saxony wool, now of such immense value. In 1809, during the invasion of Spain by the French, some of the valuable crown flock were sold to raise money. The American Consul, Jarvis, at Lisbon, purchased 1,400 head and sent them to this country. A portion of this pure and unmixed Merino flock is still to be found in Vermont at this time. Such was the origin of the immense flock of fine wool sheep in the United States at the present time.

CONJUGAL BLISS IN POLK.—The *Polk County Signal* gives a very good thing in the following:

The following is a genuine letter which fell into our hands, no matter how. It is a curiosity in its way, so we print it verbatim, only omitting names and the place it was dated:

[illegible], Oregon,
"November the 9 1868. }

To thay County Clurk of polk County I want to know of thay has bin any lisens for thay marige of bill —— and ——— as she may Change her kinne I would like for her to have a certificate before she marries but let them clip please let me know if they got license yes or no truley.

To fully appreciate the situation it will only be necessary to opine that the above tender epistle was despatched by a husband in search of his wife.

AN ILLUMINATOR.—P. D. Moore, of Olympia, was one of those who illuminated their houses on the occasion of the Grant jubilee at that place last week. Two years ago Moore was illuminating for "My Policy" and devouring Democratic Administration toads with astonishing voracity. These bread-and-butter patriots know how to change their principles to suit the times.

CHICAGO.—The vote of Chicago stands: Grant, 22,420, Seymour, 17,250. In 1864, Lincoln, 14,575; McClellan, 12,724. This comparison shows the wonderful growth of Chicago as a city, and also a very large comparative increase of the Republican majority.

TEACHING BY EXAMPLE.—Robert E. Lee has a Bible class of 150 members in his College. He should select some Bible precepts against perjurers, and enforce them by illustrations drawn from his own conduct.

The Isthmus Canal.

There is much diversity of opinion in regard to the practicability of constructing a canal across the Isthmus of Darien. President Johnson, in a recent communication, asserted the feasibility of the project, but others represent it as a work of inconceivable magitude, which will, if undertaken and accomplished, dwarf all former achievements of human enterprise, perseverance and labor. As a commercial project it would be to the world what the Pacific Railroad is to America,—shortening the routes of trade and turning commerce into new channels. If the scheme is really practicable and American energy and capital undertake its construction, it will be another long step toward building up our empire on the Pacific and securing for America the rich commerce of the Orient. The Pacific Railroad, with its early completion assured, is regarded as being about to revolutionize the commerce of the world to divert it from its old channels and make it flow in a broad stream across our own continent, enriching as it goes. But this is not true of articles whose bulk and weight are in great disproportion to their value. These must always be transported by water. It is this traffic, which is enormous and constantly increasing, that the Isthmus Canal would accommodate. It would save nearly four months to every vessel making the round trip from the Atlantic to the Pacific, and no computation could tell what a vast gain this would be to commerce. This canal and the Pacific Railroad could never interfere with each other. They would each have an appropriate place in the world's commerce. Together, they would be as long arms stretched out by the United States to grasp the riches of the East. France has cut a canal through the Isthmus of Suez; and if America will do the like with the Isthmus of Darien, direct routes will be open to the commerce of the world, yielding incalculable benefits to mankind.

SECRETARY OF STATE.—Edwin M. Stanton and John Lothrop Motley are the principal names mentioned for the head of the Department of State under the coming Administration.

The Late Elections.

Eastern journals are now arriving by overland mail filled with details of election news. The Chicago *Tribune* of the 4th inst. publishes an immense mass of details from all parts of the Union, which in almost all instances show tremendous Republican gains. The majorities in many places are so overwhelming as to almost exceed belief. At this distance of time these details would be of little interest, if published; and we shall do no more than present a few telegrams from different places:

NEW YORK CITY.

NEW YORK, Nov. 3.—Yesterday apprehensions were felt that violence would occur at the polls today, but the admirable precautionary measures of the Police Commissioners and Governor Fenton prevented any serious trouble. Governor Fenton corresponded with Secretary Schofield and arranged to have the United States troops in the vicinity of New York held in readiness to act on a moment's notice. The troops at Governor's Island were in the quarters, and steamboats were at the dock to move them where they might be needed. The police force had its full force on duty, and stages were kept at all the police stations for making rapid transfers of men. Few collisions occurred between the police and roughs, and in two cases policemen were arrested by deputy sheriff, owing to misconstructions of orders. One deputy sheriff was arrested by a policeman; both drew pistols, but neither used them. There have been about one hundred arrests for illegal voting, most of them for repeating. In a few cases the arrested men resisted the officers and were temporarily released by their friends, but none of them escaped. Several were released on bail, but a majority were looked up and will be examined tomorrow. Some deputy sheriffs caused the arrest of Republican Inspectors and thus secured some illegal votes. Inspector James Dennis, living in Thirty-third street, was seized early this morning by a number of deputy sheriffs, handcuffed and carried to Ludlow street jail upon a charge of assault and battery upon a man he never heard of. He was known to have a list of 140 repeaters who intended to vote and whom he was determined to challenge. During his absence these men all voted. Chas. H. Rogers, another Inspector in the Twenty-first Ward was also arrested at his own house by deputy sheriffs, and kept in custody under various pretexts during the day. Another Inspector named Urmy was likewise arrested, but was released before noon—though not until several repeaters had voted. Probably five or six thousand illegal votes have been cast, principally in the lower wards of the city. The heaviest repeating was in the Sixth and Seventh wards, especially in the latter. In one district several Irishmen indulged in a fight about splitting the ticket. Some blood was shed, but no arrests were made. Orders were issued yesterday requiring all drinking shops to remain closed during voting hours, and consequently there were comparatively few drunken men.

MASSACHUSETTS.

BOSTON, Nov. 3.—The Republican majority in nearly every town and city in Massachusetts show very large gains. The Republican candidates are elected in every Congressional District, the smallest majority being Mr. Twichell's—2,500. The "P. L. L." movement shows no signs of life, and the State ticket does not fall behind that of the Electors. So far as heard from, no Democrat is elected to the State Senate, and only very few to the lower branch.

In the Fifth District, General Butler's tremendous majorities surprise even himself. He will be likely to have about 12,000 votes, to 1,200 for Mr. Dana, and 3,000 to 4,000 for the Democratic candidate, Judge Lord. In some towns Butler runs ahead of the Republican State ticket, showing a gain from the ranks of the Democrats. Butler's friends are having great rejoicings in Lynn, Salem, and elsewhere. In Maine every town heard from shows a Republican gain of from ten to forty per cent. over the majorities of September.

MARYLAND.

WASHINGTON, Nov. 3.—Baltimore gives Grant 9,620; Seymour 21,593. Archer, Democrat, is elected to Congress in the Second District by 4,468 majority; Swann, Democrat, is elected in the Third District by 7,353 majority. The Fourth District is still in doubt, with the Republicans hopeful. Our gain in Baltimore is 4,200 over last year. Small Republican gains are reported in all sections of the State.

NEW YORK STATE.

NEW YORK, Nov. 3.—Major General Sloeum is elected in the Third Congressional District by over 4,000 majority.

BUFFALO, Nov. 3.—Buffalo gives a Republican majority of 500, and the county at least 1,000. Democratic last year by nearly 2,000 majority.

The returns for Governor come in slowly, but it appears from those received that Griswold runs more than 10 per cent. behind Grant, and that which Griswold loses Hoffman gains.

TENNESSEE.

NASHVILLE, Nov. 3.—The vote in Nashville city, complete, stands thus: Grant, 4,673; Seymour 962.

MEMPHIS, Nov. 3.—The election passed off more quietly than ever known. The police arrangements were admirable. Not a single disturbance occurred. The vote, as compared with that of last March, shows a falling off of five hundred, though the registration exceeds that by 250. The following is the official vote—Grant 4,708, Seymour 2,552.

WISCONSIN.

LA CROSSE, Nov. 3.—LaCrosse City gives Grant and Colfax 161 majority.

LaCrosse county gives 700 Republican majority. The Sixth or Northwestern LaCrosse Congressional District, gives General Washburn over 6,000 Republican majority.

LaCrosse and Vernon counties give 2,000 Republican majority for State Senator Butt, against Lambert, editor of the *La Crosse Democrat*. Not one blasted Democrat or one Copperhead elected to any office within one hundred miles of La Crosse.

Doolittle's successor will be a Republican Senator.

INDIANAPOLIS, Nov. 3.—Dr. Winslow S. Pierce, a life long Democrat and a brother in law of Senator Hendricks, and the chief political manager of the Senator at the New York Convention, voted for Grant and Colfax to-day.

Cornel Jewett is in Ottowa (Canada), and threatens to return to the United States.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Nov. 18.—A serious squatter riot occurred to-day about several water blocks, east of Butcher town on the Potrero shore of Mission bay. Charles Duane and several others were living in cabins built on poles on the disputed land. The claimants of the property, with a party of thirty armed men attacked and captured Duane and one squatter and the cabin in which they were living. The remaining cabins were successfully defended. A number of shots were exchanged and one of the assailants was wounded, probably fatally. Some of the public streets are in the possession of the rioters, who refuse to allow any persons to pass them unless they can give a satisfactory explanation of their business. The police made several arrests this afternoon. At three o'clock the conflicting parties were on the ground and it was apprehended that more violence would result from their movements.

Two newspaper suits against the city of San Francisco, came up to-day, but failing to empannel a jury, the Court adjourned till to-morrow.

Yesterday afternoon, Saturnie Orsuma attacked Charles Brady with a hatchet, and inflicted wounds which will probably prove fatal. Orsuma is a young man, recently married, and alleges that Brady insulted his wife.

This morning, E. J. Loade, editor of the *Rural Courier*, in which the article was published on which the action against Thomas Fitch for libel is founded, appeared in the Police court to enter a recognizance for his appearance before the Grand Jury for the purpose of giving his testimony.

The steamer *Young Nue* sailed from New York for Aspinwall, November 16th, with 1,000 passengers and 1,050 tons of freight.

FROM THE NORTH.

VICTORIA, Nov. 12.—The mate of the wrecked steamer *Del Norte* arrived from Portier's Pass last night. He reports that during the severe south-easter of Tuesday night, the steamer slipped from the rock on which she struck and went down in ten fathoms of water. On Wednesday morning not a vestige of the wreck was visible. All hopes of raising the hull must now be abandoned. The sea during the gale ran very high, rendering all approach impossible.

New Albany, Ind., is certain of a wedding shortly, a young lady of that city having consented to "take" a young man if Grant is elected. Both Grant and the young fellow have "a sure thing."

The total cost of the Government buildings, grounds and improvements in Washington, D. C., including the lighting and cleansing the streets of that city, up to June 30, 1863, according to the appropriations made by Congress, amounts, it is stated, to $11,534,940.

John C. Stanton, a Boston capitalist, interested in Alabama railroads, writes as follows to the Governor of Alabama: "Moneyed men in the North tell me that they would be glad to unite with me and assist me pecuniarily, if the election of President had been decided; and that they certainly will unite with me if General Grant is elected President. We shall, therefore, postpone active operations until after the November election; when, if everything is favorable, we shall commence upon our railroads, and push them forward with all possible dispatch."

A certain fatality prevails when a Pius occupies the Papal chair. Louis XVI. was beheaded under Pius VI. Napoleon I. was exiled to St. Helena under Pius VII. Charles X. lost his crown under Pius VIII. The occupation by Pius IX. has been curiously prolific in political disasters. Louis Phillippe, Francis II. of Naples, King Otto of Greece, the King of Hanover and Isabella of Spain have been overthrown, and the pages of history are darkened by the violent deaths of President Lincoln, Maximilian of Mexico and Prince Michael of Servia.

The ex Queen of Spain left behind her 170 carriages, several splendid Arab and English horses, as well as the finest collection of mules extant; in the couch houses and stables of her royal palace at Madrid. One vehicle, that which annually conveyed her Most Catholic Majesty to the opening of the Cortes, is a marvelous specimen of gilding and carving, and gorgeous are the trappings belonging thereto. More curious as a historic relic is the quaintly-sculptured vehicle in which Jane, Charles V.'s insane daughter, traveled with the body of her dead husband, Philip the Handsome.

Boston is a wealthy city. Its taxable property is more than $495,000,000, being larger than the whole taxable property of the State of Alabama, and more than twice as much as the State of California.

CHARITY.—A large class of people professing to be christians, on many occasions forget that to be charitable to a fellow being is the least virtue a person can possess. It is not always by giving money to the poor or assisting the afflicted that a person can only show their charity. A good advice is often better than money; for instance: Meeting a person who wishes to purchase a common or fine suit of clothes or any other article in the Clothing or Dry Goods line, is it not a charitable act toward that person to recommend them to go to Kohn & Finkel, you being certain that at that House they can purchase at the lowest rates and receive good goods, and where the most particular can be satisfied?

BUSINESS OF THE HASTINGS AGE IN SAN FRANCISCO

A Real Estate Gazette of New York in relation to the effects of the late earthquake upon the value of real estate

The 20th day of October 1868 was one of the most calculated to excite the attention and alarm of the inhabitants of San Francisco, having been preceded by a series of exaggerated and alarming earthquakes, the subject has been freely discussed upon, and we do not propose to enter upon the matter than to state that at the present time having now a special examination of the damage to buildings, we are led to conclude that the damage to buildings, as reported by the Committee of the Chamber of Commerce, is overestimated by the Committee carefully at about $350,000. We believe that the loss will not appear to be so much as the earthquakes of which is not apparent, but rather to the fact that the buildings in process of erection at the time having now received such a shock as to make them stronger than ever before. The demonstration of the earthquake has created a panic among property holders, and hence the depreciation of property. Previous to the earthquake there was a great demand for desirable property at fair prices, there are now many more than sellers. Speculators are not disposition to buy property, but the property has shown itself to be of the best quality, and figures has shown itself. If the old buildings have been destroyed, property must likely to be affected are in the business figures. Yet taking the whole question from the right point, that the prices of many of the old buildings will be increased from its present value, nearly if not permanently and that all its surroundings will be benefitted materially. Business will be attracted from its present locality to a more central point, and five story brick buildings will be erected on the present sites of one and two story dwellings. Third and fourth class houses will be removed to make room for more substantial and more valuable buildings, and much more than interest on their actual cost. The question is asked why they cannot be dispensed with at once.

SUIT FOR DAMAGES.—Capt Adams of St Helens, who has recently assumed control of the Van Ness, is about to institute a suit for damages against the judges of election in St Helens precinct for refusing to receive and vote from the poll books on the day of election. The circumstances as we learn them are about as follows. The Captain had illegally challenged a certain citizen of the village of St Helens during which time he had made a bitter speech against Democrats of the county by the name of Hall, in advocacy of the principles of the Republican party. He had served nearly four years in the army, and did not delight in the epithet applied to him. He therefore laid him. An attempt was made to arrest him on other than political grounds—to dislodge him from the office, but the captain stayed and announced his intention of remaining with his friends. Subsequently, about the middle of October he purchased the Van Ness, and divided his time between Vancouver, where his home was, and St Helens, still keeping his office in the latter place. On election day being at St Helens he voted without challenge for the Grant and Colfax ticket. Two or three hours afterwards some of the citizens came around the polls and entered complaint against the vote of Hall, alleging that he was a minor. The board of judges, consisting a majority of the board of judges, and the clerks to erase his name and the vote. His friends as I assure us, through and hence has taken the steps of suit for damages. Under our laws we think he has a right to vote he may recover heavily

AROMATIC

SCHIEDAM SCHNAPPS.

TO THE CITIZENS OF OREGON

I BEG LEAVE TO CALL THE ATTENTION OF THE citizens of Oregon to my celebrated AROMATIC SCHIEDAM SCHNAPPS a medicine in use extensively by military qualities manufactured by myself exclusively at my factory at Schiedam in Holland

In Gravel Gout and Rheumatism in Obstructions of the Bladder and Kidneys its efforts are prompt decided and invariably reliable

It is now some twenty years since the Proprietor first introduced it to the American public and during that time he has received over 1 000 letters from physicians, endorsing it as the purest liquor they have ever used in practice

It is made from barley of the finest quality selected with great care from the products of the most celebrated juniper berry distilled in Holland with the essence of the aromatic juniper berry finally added and rectified by a peculiar process which expels from the spirit every particle of fusel oil

As a means of preventing and correcting the disagreeable effects following its effects produced on the stomach and bowels by a change of water—a visitation to which travelers are subject and all unaccustomed persons are peculiarly liable—the

SCHIEDAM AROMATIC SCHNAPPS

Will be found absolutely infallible while, in cases of long gravel obstructions of the kidneys diseases of the bladder affections dyspepsia and general debility it stands unrivalled as a remedy by the most distinguished practitioners of the medical profession

It is put up in quart and pint bottles each with the name of the undersigned on the bottle and cork and a fac simile of his signature on the label For sale by all respectable druggists and country merchants

Are you WEAK DEBILITATED NERVOUS? Is your sleep disturbed? Do you have palpitation of the heart or an inclination to melancholy? Diseases of such nature require a prompt DIURETIC, which will be found in

A TELEGRAPHIC ANECDOTE — JOE GAGGERY "—A contributor to the *Telegrapher* tells this story

A decent looking, middle aged man called at my office one morning when I was cleaning the battery cups, and wished to notify his brother in P—— that another brother lay at the point of death at home His manner plainly invited me to write out a despatch at his dictation, but being too bewildered as to which wire went into which cup to act as a scribe, I evaded his eye, and fortunished pens, ink and paper, over which, with a sigh of perplexity as profound as my own, he went at once to work. And such work! I almost repented not having spared to him a moment on seeing what labor he had made at his task Dickens has given us a good picture of the unskillful penman in the person of Joe Gargery. My customer was much like Joseph in the management of the quill. He turned up his sleeves to begin with and squared himself resolutely at the desk, throwing his left arm far around the paper, and hanging his head very much on one side His eyes scowled sheepwise at the growing pothooks beneath them, and his tongue, thrust out to its fullest extent, followed in its motions those of his cramped fingers. The hand that grasped the pen was a fist, and its clutch entirely disregarded the presence of ink, as was made manifest by the deep stains that soon covered his fingers, or were communicated to his face, in the absent-minded pauses incident to his literary effort Many a fresh pen did he try, many a fair sheet ruin and cast aside before suited in the result of his toil And when he was suited, indeed, it was a pleasant thing to note the look of solid satisfaction, of exultation, even, show out upon his honest countenance, in spite of the tear marks down his cheeks and his watery eyes as he passed the scrawl over to me.

DESCRIPTION OF TOILETS —The San Francisco *Dramatic Review* has the following take-off of the Jenkins style of describing toilets

Miss Po—l—y Sm—th, old Smith's daughter, wore a short dress of sorrel poplin, striped with brown gewgaws, with a tight-fitting basque, made out of the rest of her papa's old nankeen pants Sleeves of more antique to match her suspenders, and bonnet of red oak bark, tied with slim strings Old Smith is said to own a controlling interest in the Alaska cod fisheries, needless to say Miss Sm—th looked ravishingly beautiful

Miss R—b—n—n, daughter of Sol Robinson, Esq the wealthy Front street soap boiler. This charming young lady looked more distingue than ever in a suit of Kentucky jean, trimmed with squirrel's tails blue fringe around the skirt, put on with Spalding's glue, rustic bonnet of gourd leaves, trimmed to correspond with dress She was the cynosure of all eyes, and seemed in brilliant spirits

WELL BEATEN —The morning after election the Virginia Nat *Safeguard*, a Democratic journal, said

There is no use disguising the fact that we are beaten in this county worse than we ever were before In the darkest days of the rebellion the Democracy never sustained as bad a defeat as they did at the polls yesterday

J W. Jones, of Westbrook, Maine has packed so less than 1 800 000 cans of green corn this year He has employed over 700 hands, not to mention huskers, and has had 1,500 acres of sweet corn under cultivation This business, now so large, was quite unknown but a few years ago

The Gold Hill News is responsible for the following Some one has estimated the population of the world at 1 000 000 000 Of that number the Democrats have about 1 147,000 000 to colonize from, yet they lost Pennsylvania by a handsome majority

A man recently called butter "soup and" in an advertisement in the New York papers, a small quantity of which the proprietor says, will make two pounds of excellent butter from a quart of milk! A "butter powder" of like nature is also to be "in market"

The New York *Herald* has the following A gentleman called in one of our department clerks yesterday, to order the paper He said 'Con tinue d the *Herald* I have stopped it six times on account of its politics and now I have to order it again"

Watson Freeman the United States Marshal of infamous memory in Massachusetts, died at Sandwich, in that State lately, aged seventy years He was President Pierce's fugitive catcher, and retained the office under Buchanan

The third track on the Hudson River Railroad is nearly completed.

Mr Zachariah Wilson, Portland Oregon writes,

It requires an article of real merit and intrinsic value to sustain itself during the stormy ordeal of public experiments Murray's Improved Magic Oil has stood the test of time and has not been found wanting The astonishing efficacy that I experienced—its curing me of Chronic Rheumatism and Lumbago, of long standing, entitles Dr Murray's Premium Lung and Liver Balsam and Improved Magic Oil to a high rank in the list of remedies for Rheumatism, Lumbago, Ear-ache Distressing Pains etc "

J Jin English of Howell Prairie, Marion county, Oregon writes:

I was taken with a severe attack of rheumatism in my knee joints and extremities accompanied with a severe cough for two months so that I had to use crutches meanwhile trying all remedies in common use Your Magic Oil and Balsam gave me instant relief and I was able to walk in four days without crutches I have not felt any rheumatism since I have seen your family used since used with excellent success I have no hesitancy in saying it is the best preparation for family use ever tried for the complaints I am now on my way to South Amers a after residing in Oregon twenty years I have two dozens Balsam and two dozen of your Magic Oil, dollar bottles, as I am sure they are the best remedies in Oregon, and I would not be without them in my house, and when the package of medicine is exhausted I will send to your office in Portland for a fresh supply J ENGLISH

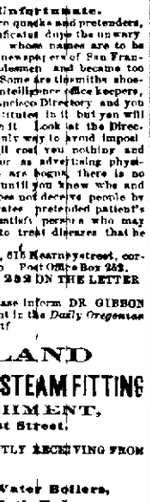
NEW REMEDIES, NEW REMEDIES

Dr Gibbon s Dispensary,



616 KEARNEY STREET NEAR COMMERCIAL San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering only miserable existance from the effects of secret indulgences or from virus absorbed into the system Look at their pallid, emaciated and disfigured faces and health broken down constitutions, totally unfitting them for the happiness of marriage or the enjoyment of life In this horrid situation they and suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible ulcerating maladies see that they are cured for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made physical disease his special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from European and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans
